
Job description

Alfred Hymas Ltd is an award-winning haulier, having won the Northern Haulage Company of the Year 2021 and located in a purpose-built site and workshop on Great North Road, Sinderby, Thirsk.

Due to the continued growth of our bulk tipping and walking floor fleet we are looking for a candidate with experience of maintaining Heavy Goods Vehicles and Trailers.

The successful candidate will be working nights and will need to work happily within a small, dedicated workshop team.

HGV Technician Responsibilities

- Very competitive salary - negotiable dependant on experience
- To work safely and keep others safe in accordance with safety standards.
- Inspection of in-house HGV Units and Trailers, including Walking Floor and Tipping Trailers.
- To carry out repairs to vehicles identified at inspection or reported by drivers from their daily defect report.
- To attend and carry out roadside repairs and punctures.
- To complete inspection and defect rectification paperwork as required.

Key Requirements

- You will be a responsible, dependable, and a committed individual who can work within a dedicated workshop team.
- You will ideally have experience of HGV repair and have the training documentation to support this.
- You will be able to work on your own initiative and the willingness to resolve issues quickly and effectively.
- You will be required to have a driving license to attend roadside repairs. Ideally the successful applicant would also have a C + E HGV license, although this is not essential.
- You must have good IT skills and an appetite to embrace new technology.
- You should have the ability to communicate confidently and effectively.
- A good team player.

Key tasks

- To carry out periodical inspections and complete the required paperwork.
- To rectify vehicle defects.
- To attend off site repairs to vehicles.
- Complete Minor accident repairs
- Repairs to trailer Sheeting Systems
- Ensure safety technology is working correctly (Cameras, Inclinometers)
- To work safely and ensure the safety of others.

Key results/objectives

- Vehicles maintained to a high standard 100% MOT first time pass rate.
- Vehicle downtime minimised.

- Vehicles to be smart and tidy in appearance.
- You will be responsible for all equipment used in the workshop.

Summary

- Maintenance of own fleet - Unit and Trailers
- Four Nights per week (Monday to Thursday 12-hour shifts)
- Overtime available
- Work as part of a dedicated team
- Roadside repairs (REACT training given)
- Salary negotiable dependant on experience

Job Type: Full-time
